Healthcare Analytics
Data Storytelling
Dashboard Design
Medical Research

FAVOUR ORDU

Medical Laboratory Scientist · Data Analyst · Power BI Specialist

Bridging the gap between science and technology. I transform complex health and operational datasets into clear, actionable insights using Power BI, SQL, and Excel — empowering data-driven decisions across clinical and logistics environments.

EXPERIENCE

Data Analyst (Projects & Freelance)

Independent / Portfolio Work Present

- Designed and deployed 3 end-to-end Power BI dashboards covering healthcare and fleet logistics domains.
- Modelled star-schema data architectures across 14+ datasets with 11,400+ records.
- Applied DAX measures and Power Query transformations to deliver KPI-driven reports.
- Analysed clinical patient data for 155+ smoking-risk patients and 80+ ulcer patients.

Medical Laboratory Scientist

Clinical Experience

- Conducted diagnostic laboratory tests including haematology, biochemistry, and microbiology.
- Maintained data records and applied analytical rigour to patient result interpretation.
- Identified patterns in haemoglobin levels and cholesterol readings relevant to chronic disease risk.

FEATURED PROJECTS

Fleet Pulse Analysis Report

Power BI dashboard analysing 14 datasets across a logistics operation, covering driver KPIs, customer revenue, maintenance costs and fleet utilisation across 11,400+ records. Built with Power Query, DAX measures and star-schema modelling.

Tools: Power BI, DAX, Power Query, Star Schema, Excel

Smoking Health Risk Analysis

Clinical dashboard tracking 155 patients across smoking status, organ damage, cholesterol and blood pressure risk by age group. Analyses daily intake, smoking duration and gender distribution.

Tools: Power BI, Healthcare Data, Clinical Analytics

Ulcer Health Risk Analysis

Dashboard tracking 80 patients across ulcer depth, haemoglobin levels, pain patterns, treatment pathways and medication distribution. Data cleaned and structured using Excel.

Tools: Power BI, Excel, Patient Data, Lab Science

CERTIFICATIONS & DEVELOPMENT

- Introduction to GitHub — GitHub Skills (2024)
- Power BI for Data Analysts — Self-directed learning
- SQL for Data Analysis — Ongoing
